**Rights:** are legal, social, ethical principles of freedom or entitlement, which are the fundamental normative rules about what is allowed to people or owed to people, according to the legal system. "Health for All" is a primary goal of the Government and SSP is striving to achieve universal indoor health coverage in Pakistan. SSP will strive to make provision for: Improvement, Access, Equity, and Quality of healthcare service, and provision of ancillary matters. The prime organization registering doctors and dentists is Pakistan Medical Commission (PMC). PMC, along with other regulatory authorities, have defined the patients, service providers rights in their code of ethics. These rights and responsibilities are essential to make sure that quality in healthcare is provided.

## **EXECUTIVE SUMMARY**

Sehat Sahulat Program (SSP) has developed Charter-of-Services to ensure that the rights and responsibilities of direct and indirect stakeholders of the program are safeguarded. This Charter-of-Services is intended to be used as a tool to assess and ensure that Sehat Sahulat Program refer to or to know what their rights and responsibilities are while functioning in the healthcare services to targeted audience across Pakistan. The documents also focus on a beneficiary centered approach and promotes participation by patients and healthcare providers as well. It also empowers Sehat Sahulat Program to feel secure and safe and to perform their functions in providing quality healthcare services in all focused districts and regions with protection of property, and without fear of harassment / violence.

The Charter-of-Services will be reviewed annually or on a need basis, as deemed appropriate by Sehat Sahulat Program, in view of its experiences, through a consultative process involving Federal & Provincial Stakeholders, targeted beneficiaries, patients, healthcare service providers, related professionals, staff and other stakeholder groups.

## **SEHAT SAHULAT PROGRAM OUTLINE**

Government of Pakistan's envisages to ensure Universal Health Coverage (UHC) for all Pakistani population. As a first step the Government, under its Sehat Sahulat Program, has launched Universal indoor Health Coverage (UiHC) in 2015 for the provision of indoor / hospitalization services to its families.

Sehat Sahulat Program is a social health protection initiative of Federal and participating Provincial and Regional Governments, working to provide financial health protection to vulnerable and marginalized families against catastrophic indoor health care expenditure. The program is a part of the National vision to ensure Universal Health Coverage (UHC) for all Pakistani families so that no one is denied quality health care services only because of financial constraints.

The program started with providing social health insurance to poor families and now its coverage is gradually been increased to other socio-economic strata of the population with district by district expansion in Punjab, Islamabad Capital Territory (ICT), Azad Jammu and Kashmir (AJK), Gilgit-Baltistan (GB), Newly Merged Districts of Khyber Pakhtunkhwa (NMD-KP) and Tharparkar - Sindh. As of today, Federal Government and Government of Punjab, under its Quami Sehat Card, is providing free of cost health insurance to more than 10 million families. Both Governments are also working to increase the ambit to additional 25 million population of districts under its domain. In addition to it, Government of Khyber Pakhtunkhwa, under its Sehat Insaf Plus card, is providing free of cost health insurance to more than 6 million families in the province.

## **GUIDING PRINCIPLES**

There are three guiding principles which describes how this Charter-of-Services of Sehat Sahulat Program rights and responsibilities applies in the healthcare delivery system.

1. Everyone targeted has the right to access safe and quality indoor healthcare and this right is essential for the Charter-of-Services to be meaningful.
2. The Government commits to international agreements like the Geneva Declaration, Alma Ata Declaration, Sustainable Development Goals (SDGs) etc.; about human and health rights which recognize everyone's right to have the highest possible standard of physical and mental health.
3. Pakistan consists of people with different cultures and way of life, and the Charter-of-Services acknowledges and respects these differences.
